It is my pleasure to recommend Rob Henson and Central Florida Custom Carpentry to anyone in need of professional trim carpentry service.

I have had the great pleasure of working closely with Rob and his team of skilled craftsmen for nearly 30 years. During that time I have always found them to do high quality work with a level of skill and professionalism rarely found in this industry.

Rob continues to work with me and my clients almost daily...in fact, he has worked many times in my home to do those jobs that I would trust few to do.

If you are looking for a quality professional wood working service and could use someone with many years of experience and proper insurance, you need to look no further than Rob Henson.

Rob is a man of character and great skill both with his clients and his employees and it would be my pleasure to recommend him for any carpentry work you might need. Please feel free to contact me for further references.

Sincerely,

Dan Pugh
